

Technology Fast 500 EMEA Ranking and CEO Survey 2007

Average growth rates highest since Fast 500 began in 2001, confidence high despite economic uncertainties

This was one of the best years ever for the Europe, Middle East and Africa (EMEA) regions in terms of high-growth technology company performance. Israel's Voltaire Ltd. led the pack with 50,612 percent growth rate. The top 20 winners in the 2007 Deloitte Technology Fast 500 EMEA are listed below. The regional Technology Fast 500 program, initiated in North America in 1997, is in its seventh year in EMEA.

For complete rankings and results from the 2007 CEO Survey, download the PDF file attachment below or read the [press release](#).
